Insect Control on Greenhouse and Nursery Crops

**Canton
February 10**

**Jacksonville
February 26**

**McKinney
February 25**

**Fort Worth
March 5**

**Houston
March 11**

 **AgriLIFE EXTENSION**
Texas A&M System

Meeting objective: These meetings will provide information to help nursery and greenhouse ornamental producers gain a better understanding of how to successfully use the insecticides and miticides on the market today and how they fit into an integrated pest management (IPM) program.

The meetings will cover:

- An overview of the insecticides and miticides on the market today.
- The biology of the major insect and mite pests.
- How to develop management programs that will decrease the likelihood of pests developing tolerance to key insecticides.

5 Convenient Locations
