

LANDSCAPE AND TURFGRASS PESTICIDE REGULATION COMPLIANCE WORKSHOP

for TDA Ornamental Plant and Turfgrass
Pesticide Applicator License Holders

Date: May 8, 2009
Time: 12 noon–3 p.m.
Location: Texas AgriLife Extension Service, Harris County Office
3033 Bear Creek Drive, Houston, TX 77084

Have you ever wondered:

- whether you're following correct and legal procedures when handling, applying or storing pesticides?
- what are the training requirements for employees who apply pesticides under your applicator's license?
- what types of records you should be keeping about pesticide applications?
- what are the most common violations of pesticide regulations found by TDA pesticide inspectors?
- what pesticide license categories are needed to legally apply pesticides to non-landscape/non-turf-grass sites?

Attend this Q&A session with Texas Department of Agriculture – Harris County Pesticide Inspectors, sponsored by the Harris County Extension Office in partnership with the South Texas Golf Course Superintendents Association. At this question-and-answer format event you'll be able to ask questions directly to the local Harris County Texas Department of Agriculture Inspectors.

This event is free, but RSVP is required. Please contact Ms. Sheronda Bryant at 281.855.5600 to reserve your spot.
